How to choose a book:

1. Look at the front cover and title. Does it interest you? If yes, go to #2
2. Read the back cover. Does it interest you? If yes, go to #3
3. Open to a random page. Read the page. Does it interest you? If yes, go to #4
4. Open to a different random page and read it. Does it still interest you? If yes, go to #5
5. You are now ready to read the book. Read the first 15-25 pages. If you still like it, keep going! If not, change books!

STILL NOT SURE:
- Consider page length, art, amazon reviews.
- Check on amazon for books you like and see what other books are recommended there
